

LABOUR MARKET INFORMATION

FOR EMPLOYERS AND JOB SEEKERS

OF RENFREW AND LANARK COUNTY

Your Workforce. Our Future.

THE MISSION: To work collaboratively with community partners on the creation of innovative labour market solutions that meet local workforce development needs.

The Labour Market Group of Renfrew and Lanark Counties represents one of 26 workforce planning areas in the province of Ontario. Funded by the Ministry of Training, College & Universities the group works to provide accurate and timely labour market information to employers, job seekers and organizations that use labour market data for strategic planning purposes. The group provides

annual labour market reports that outline trends in the local labour force using statistical data from several sources, as well as intelligence gathered from local employers and employment agencies. *This Employment Ontario Service is funded in part by the Government of Canada and the Government of Ontario.*

INTRODUCTION

Initiated by the Ministry of Training Colleges and Universities (MTCU), the Employer One survey provides a significant opportunity to gather comprehensive and detailed workforce data from every range of industry within Renfrew and Lanark Counties. The study serves as a vehicle for the employer community to express their needs on a variety of HR issues, such as labour turnover, hard to fill positions, recruitment difficulties, current and future skills shortages, as well as issues in training and education practices.

The results of the Employer One Survey are intended to provide a better understanding of employer occupational and skills requirements to inform job search and employment decision making.

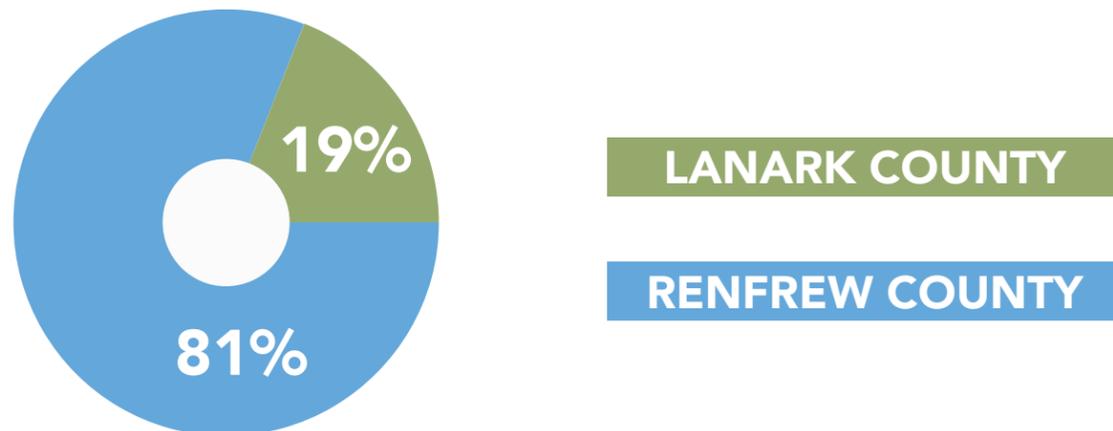

Additionally, the results of the survey can inform professional development and training courses that directly relate to the local labour market demand as identified by employers.

This survey is the fourth in a series and represents our second comparison year. The value will be increased in the years following as we establish labour force trends with our local employers. There was a 5% increase in the number of respondents this year from last year. This increase was a result of extensive outreach to local employers.
